### PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

NPIC J-3219 (8/64)

### SUMMARY

Kremenets Army Barracks is located 5 kilometers (km) northeast of Kremenets (Figure 1). The installation covers approximately 165 acres, is road served, and has rail access.

Five multistory barracks, two barracks, two multistory administration buildings, one multistory building, seven vehicle maintenance buildings, 18 storage buildings, nine support buildings, one probable barracks under construction, 16 dependents' quarters, and a motor pool are located at this installation (Figures 2 and 3).

Training facilities include an athletic field, a driver training course, four figure-8 turning circles, six possible artillery positions, and a small arms firing range.

The installation is active and little change has been noted since [REDACTED] however, improvement in photography shows buildings which are not new, but could not be previously identified.

The installation was covered by four KEY-HOLE missions between [REDACTED]

25X1D

### DESCRIPTION OF INSTALLATION

#### Rail Service

The Kremenets-Dubno line passes approximately 2 km north.

#### Road Service

The probable all-weather Kremenets-Dubno road passes along the northwest side of the installation and connects with other access roads.

#### Administrative and Troop Housing Areas

Area D1 contains one multistory administration building, four multistory barracks, two barracks, and one probable barracks under construction.

Area D2 contains one multistory administration building, one multistory barracks, and one support building.

#### General Storage Areas

Area E1 contains 12 storage and six support buildings, and Area E2 contains six storage buildings.

#### Other Buildings

Sixteen buildings are located in the depend-

ents' quarters area (11).

#### Equipment Storage/Maintenance Areas

Area J1 contains one administration building and seven storage/maintenance buildings, one 290 by 75 feet, one 220 by 60 feet, one 180 by 45 feet, and four 90 by 50 feet, and two support buildings.

Area J2 contains a 600- by 300-foot vehicle park.

#### Athletic Field

Area K is an oval-shaped athletic field.

#### Small-Arms Firing Range

Area L is an 850- by 80-foot small-arms firing range.

#### Driver Training Area

Area M (not shown on Figure 3), located immediately east of the installation, is a driver training area comprised of a driver training course, four figure-8 training circles, six possible artillery positions, and a small arms firing range.
